Partnerships - Teams

- Primary structure for Haury Program funding
- Authenticity
  - Contribution to planning, implementation, outcomes
  - Management parity
  - Budget parity
  - Outcomes and long-term impact in community and UA
- Team membership
  - Community non-profits
    - True community participation and commitment
  - University researchers, staff, students

Non-University of Arizona entities such as organizations working with underserved communities, school districts in underserved communities, Tribal nations, and other marginalized communities. Community colleges and school districts are also considered community partners. The Haury Program encourages additional partnerships with US federal, state, and local municipal (non-Tribal) governments programs and agencies but funding is not provided to these entities under this grant.
Evaluation

- How do you evaluate the success of your programs and projects in general - and this project in particular?
- What does success look like to you? What constitutes a successful project for you?
- What are the elements of evaluation plan for this project?
  - What are your goals and objectives for this project?
  - What outcomes do you expect?
  - What questions will you ask to evaluate?
  - What are the metrics that you measure?
- What are the long-term/transformational outcomes that this seed project wants to contribute to?

Note: As of Fall 2017, we require you to complete a *Illustration of Change* Table which outlines goals, activities, outcomes and impacts
### General Instructions:

Enter the Project Title and Project Lead in blocks.

1. List the goal(s) for this project. These goals are based on the problem the project addresses.
2. List the strategies and activities you will undertake to achieve each goal.
3. List the measurable expected outcome(s) for each goal. For at least one goal, an outcome must include a lasting resource, in addition to actionable information for the community, such as video, presentation at a community or professional conference, research paper, general publication, podcast, or other lasting resource.
4. List the longer term impacts that will occur when the goal is achieved.

### Table: ILLUSTRATION OF CHANGE

**Sample:**

- Enhance communication skills of scientists.
- Hold training workshop.
- 10 people acquire improved communication skills.
- Better communication about science leads to greater public understanding of physical world.
Budget

• Use the template provided and modify as needed
  • Faculty Fellowship proposals do NOT require budget template

• Budget categories:
  • Salaries and benefits
    • Haury Program funds primarily operational expenses but recognizes the need for management of successful projects and so 12% of the salaries and benefits expenses can go to management and administrative work - under salaries
  • Supplies - can include materials and equipment although this funding is not for large equipment purchases;
  • Travel;
  • Services (e.g., consultant services);
  • Other (e.g., rental of workshop space); and
  • Indirect costs (federally approved rate or up to 10% direct costs for non-University partners). [overhead]
**General Instructions:** Enter the Project Title and Project Lead in blocks. Enter the name of the non-profit organization in the column labeled "non-profit." Complete the non-profit and UA columns as needed and add each line item to the total column. Total the subtotal for each category and then total the direct costs. Add the direct costs and allowable indirect costs to determine the total funding requested. If the project duration is more than one year, complete this template for both years. Modify the template as needed regarding the number of lines required, e.g., three salaries require an additional line. **Salaries:** Recognizing that management and administration are required, note in the salary description "(administrative)" for up to 12% management/administrative costs; note "(operational)" if salaries are for operations. **Indirect costs:** UA is allowed 0% of total direct costs, non-profits are allowed the greater of their federally approved rate or 10% of direct costs. In-kind and matching funds are not required, but please note any "in-kind" if you want to do so and other notes/justifications as needed.

**Notes:** Include explanations or justifications you think necessary for the budget.
• **Haury Program seed grant funding does **not** fund:**
  - Capital improvements or building or capital campaigns;
  - Ongoing operational funding for existing programs or projects;
  - Direct donations or grants to individuals;
  - Political campaigns and legislative lobbying efforts; or
  - Projects that exclusively serve religious purposes.

• **This funding does not require matching funds.**
  - Match is not part of the evaluation scoring.
  - Haury Program encourages leveraging of funds and you are welcome to indicate in-kind contributions.

• **For UA partners: These proposals and projects are **not** subject to UA Sponsored Projects review or processing.**

• **Use the excel template provided but check your calculations.**
Successful Proposals

• Societal Need
• Partnerships
• Innovation/seed
• Clarity and detail
• Sustainability or Hand-off Planning
• Educational opportunities
Unsuccessful Proposals

• “Not well formed, unclear goals and objectives”
• “Disjointed, too ambitious, what are outcomes?”
• “What are the transformational outcomes? How measured?”
• “Project already underway, not seed funding”
• “Talk, not action”
• “Partnerships aren’t authentic (see work plan, funding)”
• “No evaluation or assessment”
Associates and Fellowships

• Visiting Associate
  • How the work relates to the Haury Program and the work plan
  • How the visit promotes collaboration, community interaction and longer-term collaborations

• Compelling ideas, capacity, work across boundaries, collaborations and partnerships, short- and long-term collaboration
Assistants and Fellowships

• Faculty Fellowship
  • How the work relates to the Haury Program
  • How the Haury Program funding will enhance the work
  • Work that honors Mrs. Haury’s concerns for people and the environment and the goals of the Haury Program
  • Compelling ideas, capacity, work across boundaries, collaborations and partnerships in UA (faculty, staff, students) and communities
  • Clarity and purposeful planning
